## SUMMARY

A full-stack developer with experience in project management within fast-paced start-up environment, and skilled in writing, clean, testable UI code. Experienced with MERN stack, jQuery, and mobile-first responsive development.

## SKILLS

- **Front-end:** JavaScript, jQuery, HTML5, CSS3, Lodash, Bootstrap, React, Redux, Responsive mobile-first design, TDD with Mocha, SASS and LESS.
- **Back-end:** Node.js, NPM, REST APIs, MongoDB, Mongoose, webpack and Browserify, ES6.
- **Other:** Git, Adobe Photoshop Illustrator, InDesign, Google Analytics, Agile development, project management, and tackling challenges as a team.

## RECENT PROJECTS

- **HowdyNeighbor:** A MERN stack forum app that connects DIY hobbyists with career professionals to get help with their projects, while allowing local craftsmen the chance to connect with new clients.
- **MyWallet:** A full stack app to help you replace what you lose when you lose your wallet. This project uses ES6, Node.js, MongoDB, Mongoose, and Express.
- **Bring-A-Dish:** A search app to find relevant recipes based on the ingredients you currently have. Built with HTML, CSS, and JavaScript. Uses the Spoonacular API.

## EXPERIENCE

### Client Manager | Voxpro

Aug 2016 - Present

- Launching new clients to support them through new endeavors.
- Providing insight and feedback on new client process, troubleshooting initial bugs, managing quality, and developing training materials.
- Developing quality and success metrics based off client's needs.
- Working with WFM, HR, and Global IT to complete new projects and initiatives.
- Identifying key issues and bottlenecks, and work to improve them
- Leading weekly client meetings to discuss new initiatives, review current trends, and ensure a healthy client relationship.

## EDUCATION

### Full Stack Web Development | Thinkful

May 2017 - November 2017

- Completed intensive, six month course
- Learning for 30+ hours a week, covering front to back web development, with a focus in MERN stack applications.
- Learned industry best practices and practical software development standards by collaborating several hours every week with a senior web developer.
- Focus: HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, and algorithms & data structures.
